CO-FOUNDER & WEB DEVELOPER

- Developed complete website from scratch. (<https://empoweraneg.github.io/>)
- currently working on fully dynamic website with node.js

Pune, India

Jan 2019 - PRESENT

## Projects

### Empowerange

WEB

- Empowerange is an aggregation of NGOs all over the country, where you can easily find the NGOs working on different noble causes at one place. Majority of the citizens are unaware about the various NGOs functioning in the locality, and most importantly, how to contribute to them.
- Empowerange bridges this gap and provides a perfect platform for every citizen who wants to make a difference in the society.

Pune

MAR 2019-present

### Air Pollution Forecast

ANDROID, ML

- An Air Pollution Forecast App with a guideline on an Individual Level to reduce it.
