WORK EXPERIENCES

Senior Software Engineer | Full-time

May 2024 - Present

Oportun

Remote • India

- **Defined the technical roadmap** for a multi-quarter **Angular to React modernization**, establishing migration strategy, shared architecture, contribution guidelines, and engineering standards.
- **Led migration** of the Tools experience from Angular to React while maintaining backward compatibility and production stability.
- **Designed a shared business logic library** reused across web and mobile applications, reducing duplication and accelerating future feature delivery.
- **Re-architected the Single Best Offer (SBO) experience** across 14 screens by consolidating 13 API integrations and removing legacy backend dependencies.
- **Led cross-functional frontend modernization initiatives** across **product, backend, design, and engineering teams**, driving migration strategy, architecture alignment, and production rollout planning.
- Improved business outcomes with a **14.4% increase in payment conversion**, **18–23.8% higher click-through rates**, **26–27% increase in Tools enrollment**, and near **100% API success**.
- **Implemented New Relic dashboards**, Session Replay, funnel analytics, and proactive alerting, reducing debugging time from **1–2 hours to 15–30 minutes**.
- **Restored WDIO automation** after modernization, reducing regression testing from one day to **1–2 hours**.
- **Authored architecture documentation** reviewed by senior engineers and became the team's SME for observability, analytics, and automation.

Software Engineer E1 - Frontend | Full-time

Mar 2021 - Apr 2024

Airtel

Hybrid • Pune

- **Built and enhanced Airtel Business Customer Experience Platform** processing over **60,000 customer cases daily**.
- **Contributed to frontend modernization** through performance optimization, state management improvements, multi-tenant architecture, and security enhancements.
- **Developed a configurable analytics dashboard platform** enabling business users to build dashboards without engineering support.
- **Built customer acquisition experiences** serving more than **1 million daily visits**.
- **Mentored interns** through architecture discussions, code reviews, and technical guidance.

Associate Software Engineer - Frontend | Full-time

Jul 2020 - Feb 2021

Betaflux

Remote • India

- **Built React and Next.js applications** for warehousing and ed-tech products.
- **Integrated secure payment workflows** and SEO-optimized marketing pages.
- **Optimized React performance** using lazy loading and memoization, achieving **Lighthouse scores above 90**.

EDUCATIONS

Pune University | Pune

May 2017 - May 2020

Bachelor of Engineering (Computer Science)

AWARDS & ACHIEVEMENTS

- **Google Explore ML Facilitator** - Selected among **60 students across India** for Google's Explore ML Facilitator program
- **Airtel ACE Award**
- **Oportun L.O.V.E recognition**
